Ride
Decision

S01

SILENCE

SMOOTHNESS
AND SUSTAINABILITY

Experience the pleasure of driving without noise

Feel the beat of new emotions.

Decide your way of moving: fast, safe and eco-friendly.

#silencebeats

THE CITY OF TODAY

*YOUR URBAN JOURNEYS WITHOUT
EMISSIONS OR TRAFFIC CONGESTION*

The **S01** is always ready for your daily life.
A range of over **115 km*** to enjoy a new
form of care-free mobility.

Certified L3e WMTC range

BREAK THE BARRIERS OF CHARGING POINTS

at home

at the coffee shop

at the office

The Silence **S01** has the **be**: a new Power Battery with wheels and a handle so that you can move it around comfortably and safely.

Don't waste time, **recharge your Power Battery Pack using any power supply.**

SHARE YOUR S01

FRIEND-SHARING SILENCE

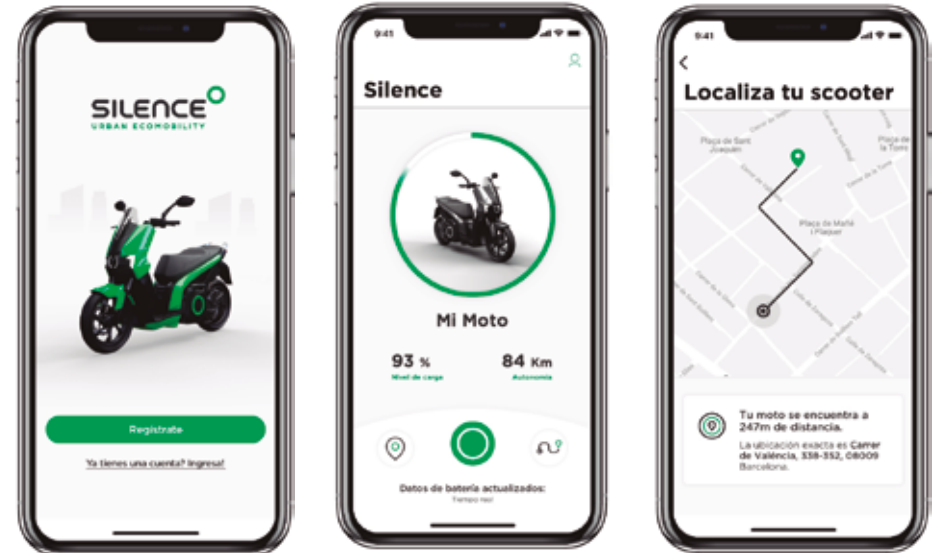

FRIEND-SHARING

The **Silence APP** allows you to share your scooter with your friends using a code. You don't need a key.

THE FIRST SMART AND CONNECTED MOTORCYCLE VIA SIM-APP

Everything you need to know about your S01 on the **Silence APP**: real-time location, the state of the vehicle and the SoC of the battery. Follow routes and get usage history and CO2 reductions statistics.

ON-ROAD COMFORT

*DETERMINED,
LIKE SILENCE S01 DRIVERS*

The **S01** is connected by default and has a built-in dock for your smartphone.

PERFECT FOR YOU, ALL THE TIME

*THERE ARE PLANS THAT ARE
BEST TO DO ALONE AND OTHERS
THAT ARE BETTER IN COMPANY*

Ergonomics that adapt to each passenger

#silencebeats

LARGE STORAGE SPACE

DON'T WORRY ABOUT BAGGAGE

Storage space for two helmets under the seat or for shopping bags, your paddle racket, your laptop, etc., whatever you want!

ENERGY

Sustainable energy for
your life.

IN
Close the circle
OUT

SOLAR ENERGY

GENERATE YOUR ENERGY SOURCE

Solar energy is renewable, a completely clean safe and eco-friendly source of power that also allows you to save on costs.

Silence has developed the Solar be Tree, a solar panel in the shape of a tree that charges your be Power Battery Pack using solar energy, without needing to connect it to the grid.

The Solar be Tree can be changed to large-scale for gardens, spacious terraces or campsites or to medium-scale on the balcony in your flat.

IN > Charge your battery through solar panels

Do it like **Museless**,
make your music wherever you want!

ENERGY ▶ OUT

ENERGY WHEREVER YOU NEED IT

*GET ENERGY IN THE PARK, FOR A PARTY
IN THE MOUNTAINS, FOR YOUR CAMPING TRIP,
ON YOUR BOAT, ETC.*

Get the most out of the energy that your be accumulates.

Thanks to the **Silence Inverter** you can use the energy stored in the Power Battery Pack for other uses.

You just have to connect the PBP to the Inverter, which transforms the voltage from 60V to 220V. The inverter has two sockets where you can plug in any electronic devices, wherever you are.

OUT > Give power to other devices (fridge, microwave, kitchen, etc..)

BATTERY SWAPPING

Soon available

Find the nearest Battery Station Silence and book your **Battery Pack** available through the Silence APP. When you get to the battery station, leave your Power Battery Pack in the empty module and take another fully charged one.

A new concept of mobility
easy, fast and comfortable.

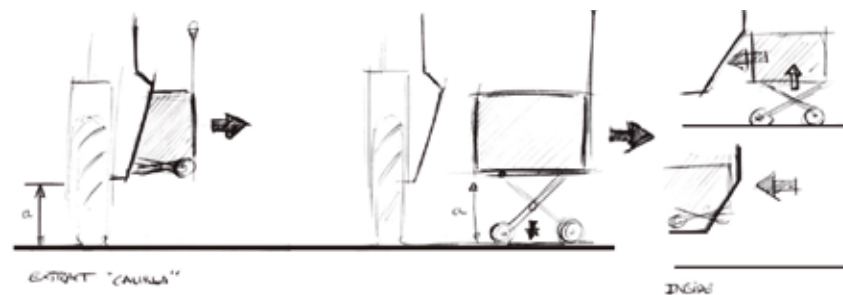

ECO
Design

S01

SILENCE DESIGN

Silence has created a cutting-edge vehicle, after five years of designing, developing and engineering: the **S01**.

First sketches of the battery extraction system in 2012

SILENCE ERGONOMICS

An electric scooter equipped with the latest technology with lines that adapt to each user and improve urban driving.

Remote ignition of the vehicle using the APP

Digital speedometer

LED lighting and daytime lights

3 driving modes and reverse gear

Wide driver and passenger seat

Remote seat opening using the app

Space for two helmets under the seat

Removable battery system like a trolley - European patent

PERSONALIZE YOUR S01

Decide which colour is best for you. Three default colours: Silence white, black and green, or try with patterns

DEFAULT COLOURS

WHITE Silence

BLACK Silence

GREEN Silence

AN ORIGINAL DESIGN

On the Silence.eco website you can personalize your S01 before picking it up. Choose the colour, pattern or letters you want to add to the plastics and **personalize your own and unique S01.**

be POWER BATTERY PACK SILENCE

With a factory in Barcelona, Silence is the only manufacturer of electric motorcycles in Europe that also designs and manufactures its own batteries and BMS (Battery Management System) providing full security. Each Power Battery Pack goes through a rigorous manufacturing process, from assembly to the testing cycle, ensuring correct performance.

REMOVABLE BATTERY SYSTEM

FAST & EASY

The Fast & Easy trolley extraction system of the Silence Power Battery Pack is patented at European level, n° 2848456, being unique and inimitable.

The most comfortable and easy solution to remove and transport the battery to any outlet.

Soon your battery can be located even if it is outside the S01 through Sigfox.

BATTERY PACK

RANGE Km / Usability with Battery Pack		5 kWh
L1e Moped 45 Km/h	Homologated CEPE 47	147 Km
	Urban	130 Km
L3e Motorcycle 100 Km/h	Homologated WMTC	138 Km
	Urban	100 Km

1. Open the seat with the APP, with the key or by pressing the two brake levers at the same time

2. Actuate the lever

3. Remove the Power Battery Pack.

4. Take the BP with you

5. Connect the battery in any plug

6. Once charged, unplug it

7. Take the battery with you and introduce it in the scooter

8. Make sure the battery is secure

Features

S01

FEATURES

S01

The scooter S01 has three driving modes, reverse and regenerative braking.

DRIVING MODES

Driving modes are selected using the **MODE** button

ECO E

In ECO mode the scooter has limited speed of 70km/h. It allows you to economize and get about in a more relaxed way

CITY C

The S01 is designed for getting around the City. It has limited speed of 85km/h, giving the vehicle a good level of performance and consumption.

SPORT S

In Sport mode the driving reaches 100Km/h, offering greater strength and speed in specific cases and a more regenerative braking

CBS and REGENERATIVE BRAKE

The S01 is equipped with a CBS system: the left brake works on both wheels while the right brake works on the front wheel and activates regenerative braking which allows you to brake and charge the battery at the same time.

REVERSE GEAR

The Silence scooters are the only ones that incorporate reverse gear, offering complete maneuverability. It is activated pressing the green button in the left handlebar. Once you've tried it, you won't be able to go without it.

ADVANTAGES

S01

- **100% electric motor** with lithium ion battery
No fuel, no emissions.
- **LED lights.** Ensures durability and low light pollution.
- **Silence.** A scooter that makes no noise and contributes towards reducing noise pollution.
- **Versatile range:** the battery's wide range covers 99% of the needs for work and city usage.
- **Instant power:** Maximum speed of 50 km/h, in 3.8 seconds.
- **Experience driving** "without stress".
Driving without noise or vibrations
- **Great manoeuvrability** and stability thanks to its low gravitational centre.
- **Impressive braking:**
The quality of our braking system allows for quick braking.
- **Powerful error control system:**
Sensors and disconnection systems ensure maximum safety and durability

SAVINGS

OWN POWER BATTERY PACK

BATTERY

Fill up for 80% less: €100 of fuel works out as €20 of electricity.

SCOOTER

Reduce maintenance costs by up to 30%, just focus on tyres and brakes.

POWER BATTERY PACK FOR RENT

Soon available

*Lower price when purchasing the vehicle without the battery.
(Very soon)*

BATTERY

Monthly cost

SCOOTER

Reduces maintenance costs by 30%.
Only tires and brakes.

EQUIPMENT AND ACCESSORIES

SILENCE

SCREEN

BOX

It is possible to add a rear box.

HELMET

Jets, with option to add a Bluetooth cable and microphone as accessories.

CLOTHES

T-shirts, gloves, jackets, etc. A line of Silence items in flagship stores.

TECHNICAL SPECIFICATIONS

S01

Top speed	100 Km/h
Weight without batteries	105 Kg
Front & rear wheels	120/70 -15 // 140/70 -14
Front & rear brakes	Free disc
Brake System	CBS
Shock	Hydraulic Damping
Size	2.000*705*1.313 mm
Wheelbase	1.450 mm
Driving modes	City, Sport, ECO and Reverse gear
Distance from floor	177 mm
Engine	7.000W (11 kW Peak Power)
Lighting	LED
Characteristics	Regenerative brake
BMS (Battery Management System)	Counter System: Manage the cells' voltage, the number of battery charges and discharges and the temperature.
IEPS Intelligent Engine Protection System	Intelligent system of the engine protection
Speedometer	Speed, SoC (State of Charge), remaining km, temperature
Extras	Extras smartphone dock
Charger	600W On-board / Off-board (Shuko Connection)
Heater	Battery pack with 55W heater (while charging)

FLAGSHIP STORES

SILENCE

POINT OF SALES SILENCE

We work in finding our partners in all countries:

- To show and let you try the S01
- To provide you the best service
- To offer you the latest advantages and promotions

www.silence.eco

Sometimes we make decisions on an impulse.

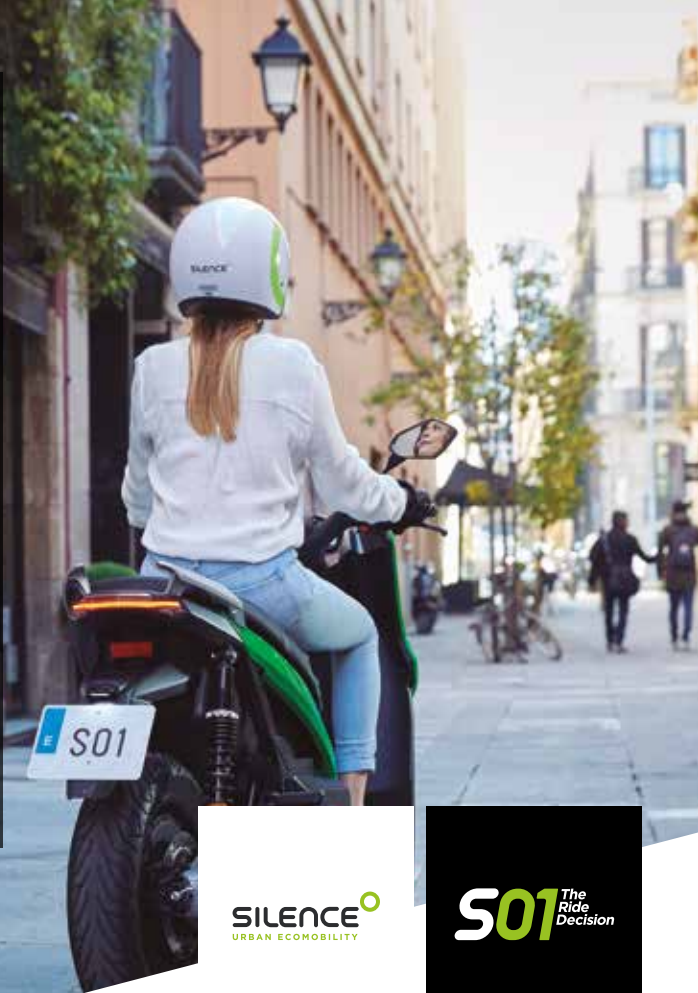

Others come out of our hearts' deepest desires.

Our hearts tell us that we're on to the right thing, to what's truly good and worthwhile.

Something similar to what your heart tells you when you fall in love. The decision to take a step out into the unknown and start something new.

Do you dare to join Silence in making cities better?

Be yourself, be Silence.
