## Upgraded Performance

### Increased power

Integrated Hub Motor power upgrade to 7.5 kW.

### Push to Pass Mode

The P2P mode has been designed to facilitate overtaking, allowing the bike to reach 109 km/h.

### Adjustable suspension

It is possible to adjust the preload of the front fork and the rear shock in a wide range of positions. In addition, the compression can be modified to stiffen or soften the rear suspension.

### Upgraded disk brakes

'Disc Wave' brakes - lightweight, enhanced thermal properties, improved braking power.

### Unique visual design

- > Anthracite matt grey bodywork
- > Gloss black detailing
- > S01+ branding on wheels and body work
- > Embossed logo at back
- > Twin texture premium sports seat with red contrast stitching
- > New style Disk Wave brakes
- > New red battery LED ring

# Standard S01+ Features

The S01+ benefits from all standard S01 features, with zippy performance, exceptional carry-on space and connected services.

## Features

### Driving modes

#### Eco

In Eco mode, the scooter's speed is limited to **69 km/h**. This allows you to save money and relax more as you drive.

#### City

In City mode, top speed is limited to **85 km/h**, giving the vehicle a good performance level and more balanced power consumption.

#### Sport

In standard Sport mode, you can drive at speeds of up to **99 km/h**, providing increased power and speed in specific cases and more regenerative braking. Unique to the S01+, the P2P mode for overtaking allows the bike to reach a top speed of **109 km/h**.

### CBS and Regenerative Brake

All S01 models are equipped with a combined braking system (CBS): the left hand brake lever applies the brakes on both wheels while the right hand brake lever applies the brake on the front wheel and engages the regenerative brake, which assists braking and also recharges the battery.

### Reverse gear

Silence scooters are the only ones to feature a reverse gear, offering full manoeuvrability. This is activated by pressing the green button on the left handlebar. Once you've tried it, it becomes an essential driving mode.
